

HALIMBA CRYSTAL
HANDMADE

The beauty
of the
handmade production.

HALIMBA CRYSTAL HANDMADE

Halimba glassworks, Hungarian Table Top Kft, was founded in Halimba, around 25 km from the lake Balaton in Hungary. Halimba Crystal is defined as elegance, modern design and knowledge of mouthblown, handmade traditional production. From the beginning the fame of halimba-crystal has been based on the handmade art of master glassmakers.

The halimba crystal collections are styled for elegance, fine stemware lines. The fine rims, the long, slim stems, the lightweights, which gives for our glassware the characteristics. The innovative design, the high quality of our leadfree crystal products and the flexibility of our handmade production makes halimba crystal for individual solution for the customers.

Our vision is to produce and sell a wide range of high quality glassware for any use and to save this knowledge of handmade production for the future.

The beautiful of these products, the timeless design makes the glassware halimba-crystal for an ideal choose for everybody.

HALIMBA CRYSTAL
HANDMADE

Modern and Trendy

The modern and trendy mouthblown glassware collections of halimba-crystal are ideal for those, who appreciate the fine shades of modern design. All-round series, that enhance the enjoyment of wine in a formal way and provide a special experience in every day life.

HALIMBA CRYSTAL
HANDMADE

Handmade production

The techniques used to make glass by hand have not essentially changed for 2000 years.

All the items from the halimba factory are completely mouthblown and hand-finished by artisans. Every crystal creation is a unique work of craftsmanship.

The transformation of a hot mass to a beautiful crystal is a miracle of creation. The melted glass starts a long journey, at least 15 different people are working in the process till the glassware can leave the manufacture.

We believe in the craftsmanship of our workers and in the tradition to save this treasure for the future.
